

## WINTER NEWSLETTER

Voeux UGA 2022 Happy New Year - Bonne Année (French) - Feliz Año Nuevo (spanish)- Buon Anno (italian) - Sana Saida (arabic) - Shuvo Noboborsho (bengali) - Barka Da Sabuwar Shekara (haoussa) - Godt nytår (danish) - Gelukkig Nieuwjaar (dutch)

We have chosen to wish you our best wishes in several native languages from our international students.  
Once again, 2021 has been an active year where research and development in health, chemistry and biology has been central to meeting today's challenges.

In 2021, among the many projects developed, one can mention the organization of many events for and with our students such as a gala evening in July to celebrate the end of the master's course, the integrate day of M1 with the discovery of the campus in the form of an escape game in September, the visit of the "histories of knowledge" exhibition at the Musée de l'Ancien Evêché in Grenoble for our international Masters students, and more! These events, particularly in times of health crisis, are important for our students and the success has been there every time!

Over the past year, CBH GS has also strengthened its training action through and for research for our students, in particular through the financing of incoming and outgoing mobility grants as well as PhD fellowships, with a new, research scholarships for M2 engaged in research project related to industry.  
Innovative and interdisciplinary training is central at the CBH GS, as the Summer Schools scheduled in June of this year.

2022 marks a new year beginning! May it be filled with happiness for you and your loved ones.
